Summer Session 2 classes draw to a close

The smiles tell it all! As both students and volunteers head back to school, the second summer session of therapeutic riding classes is coming to an end. Despite having to cancel several classes during Summer Session 1, the weather cooperated and we didn't need to reschedule any of the August classes! Many of the students made significant progress in improving their skills, and are looking forward to the fall sessions, or will be back next summer. Volunteers are still needed for the two fall sessions. Signup at our website if you're available to help bring smiles to the faces of our students!

Horse 101 program receives "seed money" from the Bernackis.

...Kamden can't wait til he's hold enough to sign up!

Rhonda & Dan Bernacki are continuing their support of the Miracles in Motion programs by providing \$2500 in seed money to initiate a Horse 101 program. The Horse 101 program grew out of a need for teaching the basics of being around horses on the ground, in addition to therapeutic riding classes. The series of four classes will enable students to learn the body parts of a horse; how to approach and where to stand safely; how to prepare a stall and feed a horse; as well as tying, leading, and grooming. A PATH-certified instructor, along with a horse leader and volunteer, will help students master the concepts taught in Horse 101. The first series of classes start September 9th. For more information, contact the Miracles office.

Nancy Hauserman channels her inner cowgirl!

After meeting all the horses in the Miracles herd, Nancy Hauserman has decided to "adopt" Aspen! She felt a personal connection to Aspen's friendly personality and calm demeanor. Several of Aspen's herd mates are also available if you are interested in supporting one of the Miracles horses through a monthly contribution of \$100. We will arrange for you to personally select your "adoptee" as well as facilitate quarterly grooming sessions and a professional photo of you and your Miracles horse. Adopting a horse is truly a win-win: Our horses can use your support and you'll enjoy getting to know your horse on a personal level.
